

# IDATA2304 Project Sprints

## Sprint report group 11

---

Majd Abbas (Github:: FaalFlew/teteh50),

Nils Sebastian (Github:: Sebastiannilsen)

### *Sprint 5*

Week 47: [Nov. 20] - [Nov. 26]

#### **Accomplishments:**

- We prioritized other courses this week as we had a bunch of work and preparation for exams regarding other courses.

#### **Issues:**

- N/A

#### **Next steps:**

- Start implementation of server, client handler message handler and client class. Make possible the transmission of data between server and client

#### **Unfinished Issues from Previous Week:**

- Implement Socket Communication for Smart Farming Simulation  
(Assigned to [Nils Sebastian])
